

MetaX Community Code of Conduct

The rules revolve around four points:

1. The value of USDM is always equal to 1 US dollar.
2. USDM can only be circulated to partners directly referred by oneself.
3. It is strictly prohibited to circulate USDM for free in any form. Violators will have their addresses banned.
4. When A circulates USDM to B, and B uses USDM to circulate to a new merchant C, if B's USDM is insufficient for circulation, B can circulate USDM to A, but A is not allowed to give any rebate to B. When B's USDM quantity is sufficient to meet the USDM required for circulation by the new merchant, for each USDM circulated, B must circulate 20%-30% of the circulation amount to A, and each circulation must involve circulating USDM to A. The specific circulation ratio will be voluntarily communicated between B and A. If B circulates USDM without circulating the corresponding proportion of USDM to A, and if found true, the address will be banned permanently.

Notes:

Settlement of USDM circulated with A is subject to negotiation between the two parties. The circulation of USDM is only relevant between A and B; A has no involvement with C. Attention: Once participating in USDM circulation, it is considered that one knows and understands the MetaX community rules and is willing to abide by them. Violations will result in address bans!

Prohibited Conduct:

(Violation will result in removal from the community for minor offenses and wallet address ban for severe cases)

1. Prohibition of using contact information in nicknames on chat tools such as Tencent Meeting, WeChat groups, QQ groups, Telegram groups, etc. Private messaging or adding anyone is strictly forbidden.
2. Prohibition of inflating prices by merchants.
3. Prohibition of selling USDM at low or high prices.
4. Prohibition of direct resale of appreciated assets.
5. All individuals must circulate USDM only through their referrers.
6. Prohibition of lateral or cross-level transactions among partners.
7. Prohibition of model-based merchants from entering (except those with legitimate direct selling licenses).
8. Prohibition of private discussions to unilaterally change the name or add additional conditions to the "MetaX Emerging Industry Economic Model".
9. Prohibition of highlighting personal worship.
10. Prohibition of new partners arbitrarily selecting referrers within the community.
11. Prohibition of setting financial thresholds for new partners joining the community.
12. Prohibition of community members from developing partners in live streams that do not belong to them.

13. Prohibition of discussing politics, religion, and other sensitive topics within the community.

What Should Be Done:

1. Maintain a pure heart and sincere intentions, and practice altruism.
2. Provide genuine products with quality assurance, offer attentive services to users, and enhance the user shopping experience.
3. Encourage partners to engage in continuous learning, participate in Tencent Meetings daily to improve their professional skills, fully understand the concept of the "MetaX Emerging Industry Economic Model," and promote it correctly.
4. Be proficient in wallet operation procedures and price query processes.
5. Maintaining a positive image and order in the community is our collective responsibility and obligation.
6. When developing merchants, confirm with them whether products are negotiable and clearly indicate it publicly.
7. Take responsibility for your decisions; once involved, no refunds will be given.

Before Sharing, All Sharers Should:

1. First inquire whether others have introduced MetaX to them or if they have received private messages from other teachers about MetaX online. If so, communicate with the previous teacher. If not, proceed with sharing MetaX.
2. During the sharing process, it is mandatory to inform about the MetaX Community Code of Conduct.
3. Upon deciding to participate in MetaX, one must sign a MetaX disclaimer statement.
